Bio

Vicarious is a Swiss Tool tribute band with a distinct identity. Formed out of years of shared musical experience, the project began in 2012 as an instrumental endeavor, fully committed to precision, atmosphere, and the unmistakable Tool sound.

In 2021, the band completed its lineup with Jermaine, a vocalist originally from Barbados. Since their first show as a full quartet in January 2023, Vicarious has delivered intense and authentic Tool performances, combining musical accuracy with powerful live impact.
